## **ASYS expands in Brazil**

Atlanta, GA – May 24, 2010 – ASYS Group Americas, Inc announced today the expansion of their sales and service structure in Brazil. This will include sales and service personnel that will be located in Sao Paulo and Manaus, two of the main manufacturing locations in Brazil.

“The additions to our support structure in Brazil are consistent with our global strategy of providing expert and highly specialized expertise to our customers across the entire ASYS Group product line of board handling, laser markers, depaneling systems and screen printers. Implementing an improved direct sales and service structure in Brazil will ultimately give our customers a much higher level of support by ensuring that they are able to work with personnel that are experts on our equipment. Upon completion of the expansion we will be able to provide our customers with a much faster response time to all of our products.” Said Markus Wilkens, President of ASYS Group Americas.
