

EKRA - Markus Albrecht successively takes over as managing director

**Markus Albrecht has been supporting Jakob Szekeresch in the management of EKRA Automatisierungssysteme GmbH, based in Bönningheim, since September 1st, 2022. Jakob Szekeresch will hand over the EKRA baton to his successor on December 31st, 2023, after 16 very successful years "with the best wishes for the future and growth."**

After studying process engineering, Albrecht worked for 25 years in plant engineering and special machine construction. In various professional positions, he got to know all areas at different levels. Among other things, he spent five years as managing director of a medium-sized robot manufacturer in the semiconductor industry. "By working together with Jakob Szekeresch, who has successfully managed EKRA for many years, I can gradually familiarize myself with the topics and tasks and thus successfully shape the future with the entire EKRA team. Above all, I am looking forward to further deepening the cooperation between EKRA and ASYS."

**Caption Markus Albrecht:**

**"I work (...) on products that help make the world a little better through advanced technologies and new energy systems."**

Jakob Szekeresch took over the management of EKRA Automatisierungssysteme GmbH within the ASYS Group at the beginning of 2007. Szekeresch is an engineer in the field of electrical engineering. In

recent years, the EKRA managing director has held various management positions as authorized signatory, general manager and consultant.
